

I am concerned about the number of TV show promotions containing violent or sexual material that are shown during programs that are not of that nature. I cannot watch sporting events or even 'family' television with my children due to promos for shows such as "Law & Order", "SVU", "Crime Scene" or "NYPD Blue". And I was stunned at the promo for "Hawaii" which ran during the Olympic games showing blood, dead bodies, guns and more! These promos need to be cleaned up or stopped.
